SUMMARY

A frontend developer with 2.4 years of experience adept at creating visually appealing and interactive websites using ReactJS, Redux, HTML, CSS, and JavaScript. Experienced in working with the Angular framework as well, expanding the scope of web development capabilities. Proficient in Agile methodologies, including Scrum and skilled in GIT version control for optimizing project workflows and ensuring high-quality results.

Committed to delivering elegant solutions that enhance user experiences and drive business success. Collaborative team player with a strong focus on open communication and continuous improvement, thriving in dynamic and fast-paced environments.

EXPERIENCE

Software Developer

Tech Mahindra

August 2021 – April 2023, Pune, Maharashtra, India

- Built website components using ReactJS, Redux, JavaScript, ES6, HTML5, CSS3, Git, and Oracle SQL. Optimized website performance using a variety of performance optimization techniques and developed the website responsive with a strong understanding of CSS-based design & cross-browser compatibility.

Software Engineer Trainee

ANR Software

March 2021 – July 2021, Noida, Uttar Pradesh, India

- Successfully developed and deployed web applications using HTML, CSS, and JavaScript, resulting in a 20% increase in user satisfaction.
- Integrated front-end and back-end aspects of web applications with a strong understanding of web standards.

PROJECTS

Onward Billing Portal (Client- British Telecom)

Tech Mahindra

In this project, I developed and deployed a cutting-edge React-based web application for British Telecom's Onward Billing Portal. The application catered to different user roles and efficiently displayed data populated from a legacy application running on the server. Leveraging technologies such as React, Redux, HTML, CSS, Bootstrap, Oracle SQL, RestAPI, Java (Spring), and Jenkins, we ensured optimal performance and seamless integration, delivering a robust and user-friendly portal.

Gaztec Rate Upload (Client- British Telecom)

Tech Mahindra

For British Telecom's Gaztec Rate Upload, I played a pivotal role in the development process, crafting web pages according to the provided designs and seamlessly integrating APIs into the web application. Employing HTML/CSS, Angular, JavaScript, Spring, Oracle SQL, and Shell-Script, we delivered an impeccable solution that met the client's exact requirements, further strengthening the client's relationship and our reputation for delivering high-quality projects.

Gaztec Network Mediation (Client- British Telecom)

Tech Mahindra

During my time at Tech Mahindra, I contributed significantly to the Gaztec Network Mediation project for British Telecom. My responsibilities involved developing lookups based on specific criteria provided by the designer and deploying them as jar files on the server to facilitate efficient processing of Call Detail Records (CDRs). My expertise in Java, SQL, Shell scripting, and UNIX commands played a crucial role in ensuring seamless operations and delivering a robust solution.

E-Restaurant management (Client- Altametrics)

ANR Software

At ANR Software, I had the privilege of working on the E-Restaurant Management project for Altametrics. My role entailed developing responsive web pages tailored to meet the unique requirements of the client. By skillfully employing HTML/CSS, JavaScript, and Oracle SQL, I ensured a seamless user experience across various devices, enhancing the application's functionality and usability.

EDUCATION

Bachelor of Technology (Computer Science)

Dr. APJ Abdul Kalam Technical University • Lucknow, Uttar Pradesh, India • 2021 • 7.3 GPA

SKILLS

ReactJS, Redux, Javascript, Angular, ExpressJS, HTML-CSS, JQuery, GIT, Oracle SQL, Spring (Java)
